## **COUNTRY CONDO'S LIMITED**

7. The AGM has been convened through VC/OAVM in compliance with applicable provisions of the Companies Act, 2013 read with MCA General Circular No. 14/2020 dated April 8, 2020, General Circular No. 17/2020 dated April 13, 2020, General Circular No. 20/2020 dated May 05, 2020 and General Circular No. 39/2020 dated December 31, 2020. In continuation of this Ministry's General Circular No. 20/2020, dated May 05, 2020 and after due examination, it has been decided to allow Companies whose AGMs were due to be held in the year 2023, or become due in the year 2023, to conduct their AGMs on or before 30.09.2023, in accordance with the requirements provided in Paragraphs 3 and 4 of the General Circular No. 20/2020 as per MCA General Circular No. 02/2021 dated January 13, 2021, General Circular No. 02/2022 dated May 05, 2022 and General Circular No. 11/2022 dated December 28, 2022.
8. An Explanatory Statement pursuant to Section 102(1) of the Companies Act, 2013, with respect to Item Nos. 3 of the Notice set out above is annexed hereto. The Board of Directors have considered and decided to include Item Nos. 3 given above as Special Business in the forthcoming AGM, as it is unavoidable in nature and forms part of this Notice.
9. The Register of Directors' and Key Managerial Personnel and their shareholding maintained under Section 170 of the Companies Act, 2013, the Register of Contracts or arrangements in which the directors are interested under Section 189 of the Companies Act, 2013, will be available for inspection to the Members electronically without any fee by the members from the date of circulation of this Notice up to the date of AGM, i.e. September 22, 2023. Members seeking to inspect such documents can send an email to [info@countrycondos.co.in](mailto:info@countrycondos.co.in).
10. Institutional / Corporate Shareholders (i.e., other than individuals / HUF / NRI, etc.,) are required to send a scanned copy (PDF/JPG Format) of its Board or Governing Body Resolution/Authorization etc., authorizing its representative to attend the AGM through VC / OAVM on its behalf and to vote through remote e-voting. The said Resolution/ Authorization shall be sent by email through its registered email address to [info@countrycondos.co.in](mailto:info@countrycondos.co.in) with a copy marked to [info@aarthiconsultants.co.in](mailto:info@aarthiconsultants.co.in).
11. The Register of Members and Share Transfer Books of the Company will remain closed from Saturday, 16<sup>th</sup> September, 2023 to Friday, 22<sup>nd</sup> September, 2023 (both days inclusive).
12. Shareholders holding shares in physical form may write to the Company/Company's R&T agents for any change in their address and bank mandates; shareholders holding shares in electronic form may inform the same to their depository participants immediately, where applicable.
13. The Securities and Exchange Board of India has mandated submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in demat form are, therefore, requested to submit PAN details to the Depository Participants with whom they have demat accounts. Members holding shares in physical form can submit their PAN details to the Company/Registrar and Share Transfer Agents (Unit: M/s. Aarathi Consultants Private Limited)
14. In consonance with the Company's sustainability initiatives and Regulation 36 of the SEBI (LODR) Regulations, 2015, the Company is sharing all documents with Shareholders in the electronic mode, wherever the same has been agreed to by the shareholders. Further The Ministry of Corporate Affairs (vide Circular Nos. 17/2011 and 18/2011 dated April 21 and April 29, 2011 respectively), has undertaken a 'Green Initiative in Corporate Governance' and allowed Companies to share documents with its shareholders through an electronic mode. Shareholders are requested to support this green initiative by registering / updating their e-mail addresses for receiving electronic communications. Members holding shares in the same name under different ledger folios are requested to apply for consolidation of such folios and send the relevant share certificates to M/s. Aarathi Consultants Private Limited, Share Transfer Agents of the Company for their doing the needful.
15. As per SEBI Notification No. SEBI/LAD-NRO/GN/2018/24 dated June 8, 2018 and further amendment vide Notification No. SEBI/LADNRO/GN/2018/49 dated November 30, 2018, w.e.f. April 1, 2019 the transfer of securities of listed companies shall not be processed unless the securities are held in the dematerialized form (Demat) with a depository. Hence, the Members of the Company are requested to dematerialize their shareholding to avail the benefits of dematerialization. Only the requests for transmission and transposition of securities in physical form, will be accepted by the RTA.

## **COUNTRY CONDO'S LIMITED**

16. Members are requested to send their queries at least 10 days before the date of meeting so that information can be made available at the meeting.
17. In case of joint holders attending the Meeting, only such joint holders who are higher in the order of names will be entitled to vote.
18. In respect of shares held in physical mode, all shareholders are requested to intimate changes, if any, in their registered address immediately to the registrar and share transfer agent of the company and correspond with them directly regarding share transmission/transposition, Demat/Remat, change of address, issue of duplicate shares certificates, ECS and nomination facility.
19. In terms of Section 72 of the Companies Act, 2013, a Member of the Company may nominate a person on whom the shares held by him/her shall vest in the event of his/her death. Members desirous of availing this facility may submit nomination in prescribed Form-SH-13 to the Company/RTA in case shares are held in physical form, and to their respective depository participant, if held in electronic form.
20. The Companies Equity shares are listed at BSE Limited and National Stock Exchange of India Limited and the listing fee for the FY 2023-24 has been paid.
21. The requirement to place the matter relating to appointment of Auditors for ratification by members at every Annual General Meeting is done away with vide notification dated May 7, 2018 issued by the Ministry of Corporate Affairs, New Delhi. Accordingly, No Resolution is proposed for a Ratification of Appointment of Auditors, who were appointed in the 35<sup>th</sup> Annual General Meeting held on 10<sup>th</sup> August, 2022.
22. Details of Directors retiring by rotation / seeking re-appointment at the ensuing Annual General Meeting are provided as an Additional Information required to be furnished under Regulation 36(3) of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 and Secretarial Standards issued by the Institute of Company Secretaries of India, to this Notice.
23. In terms of the provisions of Section 152 of the Act, Sri Y. Siddharth Reddy, Director of the Company retire by rotation at the ensuing AGM. Nomination and Remuneration Committee and the Board of Directors of the Company recommends his appointment. Further Sri Y. Siddharth Reddy is interested in the Ordinary Resolution set out at Item No. 2 of the Notice with regard to his re-appointment. Sri Y. Siddharth Reddy, Director being related to Sri Y. Rajeev Reddy, Sri Y. Varun Reddy and Smt. Y. Manjula Reddy may be deemed to be interested in the resolution set out at Item No. 2 of the Notice. Saved and except the above, none of the other Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the Ordinary Business set out under Item No. 2 of the Notice.
24. In accordance with the aforesaid MCA Circulars and SEBI Circulars, the Financial Statements including Report of Board of Directors, Auditor's Report or other documents required to be attached therewith and the Notice of AGM are being sent in electronic mode to Members whose e-mail address is registered with the Company or the Depositories / Depository Participant(s). The Registered Office of the Company shall be deemed to be the venue for the AGM.
25. Since the AGM will be held through VC/OAVM, the Route Map is not annexed in this Notice.
26. Instructions for e-voting and joining the AGM are as follows:

### **A. THE INTRUCTIONS OF SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:**

- (i) The voting period begins on Tuesday, September 19, 2023 (9:00 A.M. IST) and ends on Thursday, September 21, 2023 (5:00 P.M. IST). During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on Friday, September 15, 2023 i.e. cut-off date (record date) may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

## **COUNTRY CONDO'S LIMITED**

- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (iv) In terms of SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their Mobile Number and Email Id in their demat accounts in order to access e-Voting facility.

The Board of Directors noted and took on record the report of the business review and analyzed the various options available and suitable in the present circumstances to the Company. The Board decided that it was no longer cost effective to manufacture and produce the goods in the present un-remunerative market conditions with the help of present undertaking. Hence, the Board, after due discussions and deliberations, decided to diversify / proposed to diversify its activities into the area of Real Estate & Construction Development only.

### **3. OUTLOOK FOR INDIAN ECONOMY & INDUSTRIAL STRUCTURE:**

India has emerged as the fastest growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 5 years, backed by its robust democracy and strong partnerships.

A number of sectors in India – real estate, steel, cement, home building products and consumer durables, among others - reported unprecedented growth. Real estate sector in India is expected to reach US\$ 1 trillion in market size by 2030, up from US\$ 200 billion in 2023 and contribute 13% to the country's GDP by 2025. Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs.

In 2023, we anticipate further downward trends in the global economy. This however, should be an opportunity for the Indian economy to become a world leader. The real estate sector is likely to continue on its journey of long term growth as we see a continuous rise in GDP per capita, larger disposable incomes, growing urbanization and most of all a larger focus of the world on us as the next big economy.

An increase in earning potential, a need for a better standard of living and the growing base of aspirational consumers and their lifestyle changes have led to substantial growth in the sector. With suited economic growth, the premium housing segment will also witness higher demand in the years to come.

India's growth continues to be resilient despite some signs of moderation in growth, although significant challenges remain in the global environment, India was one of the fastest growing economies in the world.

The overall growth remains robust and is estimated to be 6.9% for the full year with real GDP growing 7.7% year on year during the first three quarters of FY 2022-23. There were some signs of moderation in the second half of FY 2022-23. Growth was underpinned by strong investment activity bolstered by the government's capex push and buoyant private consumption, particularly among higher income earners. Inflation remained high, averaging around 6.7% in FY 2022-23 but the current account deficit narrowed in Q3 on the back of strong growth in service exports and easing global commodity prices.

### **4. FUTURE PROSPECTS AND OUTLOOK OF THE COMPANY:**

The Indian economy is projected to grow by more than 6% in FY23 as per various institutional estimates, making it one of the fastest-growing economies. India's growth journey could be the result of a culmination of favourable tailwinds like consistent agricultural performance, flattening of the COVID-19 infection curve, increase in government spending, reforms and an efficient roll-out of the vaccine, among others.

The Company witnessed an uptick in residential real estate demand compared to the year before. Your Company has been actively focusing on improving on-site facilities to create a safe working environment for workforce and reduce the impact of reverse migration. We believe that government reforms will lead to improved governance in the sector, increase transparency and bring about consolidation amongst real estate players. The Company remains positive about the long-term direction of the sector on back of higher consumer confidence and increasing affordability due to declining interest rates, stagnant real estate prices and rising disposable income. We believe that we are in a strong position to benefit from such expected shifts in the sector. With our good track record and excellent sales and marketing capabilities the Company in Southern India and operating currently also in Western India (Maharashtra and Rajasthan) is well poised for a high growth trajectory over the next few years.

Your Company will focus on opportunistic growth avenues in current environment to create a healthy project pipeline across its markets. Fast turnaround deals shall be a specific focus area for new deals in F.Y. 2023-2024. When evaluating new projects, the Company will continue to seek superior long-term growth in shareholder value by maximizing returns through optimal financing and fiscal discipline. The Company shall also enhance agility across its processes to further reduce project launch turnaround times. These shall provide your company with the competitive edge in operational excellence and customer experience respectively.

## **COUNTRY CONDO'S LIMITED**

A consolidation in the residential real estate sector is expected to continue, leading to an increase in the market share of branded organized players such as your Company. Given the pace of urbanization, low interest rates and rising per capita disposable incomes, Country Condo's remains optimistic about the long-term sectorial direction. With a strong brand, South-India presence in Hyderabad, Chennai and Bengaluru and commencing from this FY 2023-24 in West-India presence at Kolad, Mumbai, Jaipur and Sikar demonstrated track record and robust marketing capabilities, your Company is poised for a better growth trajectory comparing to the current year.

## MANAGEMENT AND DISCUSSION ANALYSIS REPORT

### OVERVIEW:

The Real Estate Sector is one of the most globally recognized sectors. Its impact on the overall economy has been deepening over the past few years, mainly because of the rising population on the demand side and enhanced government initiatives as an enabler. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations. The construction industry ranks third among 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy.

The Indian economy continued to exhibit steady growth and remained among the fastest growing emerging economies, with a focus on the continued implementation of structural and financial sector reforms and efforts to reduce public debt.

The Central Bank continuously eased the monetary policy following recent cuts in interest rates. However, full benefits are yet to be transmitted to the industry, which may lead to increased investments. Strong measures are being implemented to strengthen the country's financial sector (especially banks) through the accelerated resolution of non-performing assets under a simplified bankruptcy framework.

In India, real estate is the second largest employer after agriculture and is slated to grow at 30 percent over the next decade. It is also expected that this sector will incur more non-resident Indian (NRI) investments in both the short term and the long term. Bengaluru is expected to be the most favored property investment destination for NRIs, followed by Ahmedabad, Pune, Hyderabad, Chennai, Goa, Mumbai, Delhi and Dehradun.

### ECONOMIC REVIEW:

#### GLOBAL ECONOMY:

The baseline forecast is for growth to fall from 3.4% in 2022 to 2.8% in 2023, before settling at 3.0% in 2024. Advanced economies are expected to see an especially pronounced growth slowdown, from 2.7% in 2022 to 1.3% in 2023. With further financial sector stress, global growth declines to about 2.5% in 2023 with advanced economy growth falling below 1.0%.

Global headline inflation in the baseline is set to fall from 8.7% in 2022 to 7.0% in 2023 on the back of lower commodity prices but underlying (core) inflation is likely to decline more slowly. Inflation's return to target is unlikely before 2025 in most cases.

A series of severe shocks struck the world economy in 2022. With the impacts of the COVID19 pandemic still reverberating worldwide, the war in Ukraine ignited a new crisis, disrupting food & energy markets, leading to a worldwide surge in inflation causing an erosion of real incomes and economic hardships. Persistently high inflation, prompted a synchronized aggressive monetary tightening across economies. Rising interest rates and diminishing purchasing power have weakened consumer confidence and investor sentiments, further clouding near-term growth prospects for the world economy. Growth momentum has weakened in the United States, the European Union and other developed economies with many European countries projected to experience a mild recession in 2023. Due to elevated energy costs, high inflation and tighter financial conditions, the world output growth is projected to decelerate from an estimated 3 percent in 2022 to only 1.9 percent in 2023, marking one of the lowest growth rates in recent decades.

#### INDIAN ECONOMY:

India's growth continues to be resilient despite some signs of moderation in growth, although significant challenges remain in the global environment, India was one of the fastest growing economies in the world.

The overall growth remains robust and is estimated to be 6.9% for the full year with real GDP growing 7.7% year on year during the first three quarters of FY 2022-23. There were some signs of moderation in the second half of FY 2022-23. Growth was underpinned by strong investment activity bolstered by the government's capex push and buoyant private

consumption, particularly among higher income earners. Inflation remained high, averaging around 6.7% in FY 2022-23 but the current account deficit narrowed in Q3 on the back of strong growth in service exports and easing global commodity prices.

The World Bank has revised its FY 2023-24 GDP forecast to 6.3% from 6.6% (December 2022). Growth is expected to be constrained by slower consumption growth and challenging external conditions. Rising borrowing costs and slower income growth will weigh on private consumption growth and government consumption is projected to grow at a slower pace due to the withdrawal of pandemic related fiscal support measures.

Although headline inflation is elevated, it is projected to decline to an average of 5.2% in FY 2023-24, amid easing global commodity prices and some moderation in domestic demand. The Reserve Bank of India has withdrawn accommodative measures to rein in inflation by hiking the policy interest rate. India's financial sector also remains strong, buoyed by improvements in asset quality and robust private sector credit growth.

The central government is likely to meet its fiscal deficit target of 5.9% of GDP in FY 2023-24 and combined with consolidation in state government deficits, the general government deficit is also projected to decline. As a result, the debt to GDP ratio is projected to stabilize. On the external front, the current account deficit is projected to narrow to 2.1% of GDP from an estimated 3.0% in FY 2022-23 on the back of robust service exports and a narrowing merchandise trade deficit.

Spillover from recent developments in financial markets in the US and Europe pose a risk to short-term investment flows to emerging markets, including India.

The current global economic slowdown cuts across both developed and developing countries. The Indian Economy which has undergone transformative new age reforms in recent years absorbed the economic shocks with resilience.

However, the economic performance in 2022 started on a very slow note recovering from the aftermath of global economic shocks and the growth rate moderated at 6.4%. The efforts of Government of India including health and safety measures, financial incentives and a sustained increase in the capital expenditure and incentivized boost to infrastructure development projects underpinned by private players, have placed the country on the path of fast paced recovery, ahead of many nations. The industry showed robust growth, particularly in the second-half of 2022-23, with Index of Industrial Production (IIP) accelerated to 5.6 percent year-on-year in February 2023.

Despite of war in Ukraine and the staggering inflation, the Indian equity market had a comparatively stellar year. The government's focus on infrastructure development with initiatives like the National Infrastructure Pipeline and Atmanirbhar Bharat Abhiyan are expected to create opportunities and the GDP is expected to remain around 6.7% in 2023-24. However, the effects of geo-political tension rising around the world pose a threat to the economic growth of the Country and clouds of uncertainty are still hovering around World economic growth.

Under PM GatiShakti Master Plan, the National Highway Network will develop 25,000 Kilometers of new highways network which will be worth ' 20,000 Crore (US\$ 2.67 billion) in FY 2022-23. Increased government expenditure is expected to attract private investments, with a production-linked incentive scheme providing excellent opportunities. Consistently proactive, graded and measured policy support is anticipated to boost the Indian economy.

India is the third largest unicorn base in the world with over 83 unicorns collectively valued at US\$ 277.77 billion, as per the Economic Survey. By 2025, India is expected to have 100 unicorns, which will create ~1.1 million direct jobs according to the Nasscom-Zinnov report 'Indian Tech Start-up'.

A number of sectors in India – real estate, steel, cement, home building products and consumer durables, among others -reported unprecedented growth. Real estate sector in India is expected to reach US\$ 1 trillion in market size by 2030, up from US\$ 200 billion in 2023 and contribute 13% to the country's GDP by 2025. Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs.

As per IMF's latest World Economic Outlook projections, India's real GDP projected to grow at 7.1 percent in 2023-2024, which would make India the fastest growing major economy in the world for next 3 years.

### **INDUSTRY REVIEW:**

The real estate sector is one of the most globally recognized sectors. The real estate sector comprises four sub sectors - housing, retail, hospitality and commercial. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations. The construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy.

The residential real estate market in India had astounding progress in 2022, setting new sales records of 68% year on year, further demonstrating the industry's prominence as one of India's fastest growing industries. After 2 years of being affected by COVID, Tier 2 and Tier 3 cities have arisen as fresh major real estate trends in 2022, and the real estate market has set unprecedented benchmarks which continued its growth momentum from 2021 amid the global slowdown.

In 2014, the Securities and Exchange Board of India (SEBI) has given its approval for the Real Estate Investment Trust (REIT) platform, which has allowed all kind of investors to invest in the Indian real estate market. It would create an opportunity worth ' 1.25 trillion (US\$ 19.65 billion) in the Indian market in the coming years. Responding to an increasingly well-informed consumer base and bearing in mind the aspect of globalization, Indian real estate developers have shifted gears and accepted fresh challenges. The most marked change has been the shift from family-owned businesses to that of professionally managed ones. Real estate developers, in meeting the growing need for managing multiple projects across cities, are also investing in centralized processes to source material and organise manpower and hiring qualified professionals in areas like project management, architecture and engineering.

The growing flow of FDI in Indian real estate is encouraging increased transparency. Developers, in order to attract funding, have revamped their accounting and management systems to meet due diligence standards. Indian real estate is expected to attract a substantial amount of FDI in the next two years with US\$ 8 billion capital infusion by FY24.

Residential real estate in the country's top seven property markets has staged a comeback with sales exceeding pre-pandemic levels, driven by record-low interest rates, discounts offered by developers, lower prices and stamp duty cuts in key areas.

The improved sales momentum has lifted confidence among realty developers, pushing them to launch more projects as indicated by the rise in new offerings across markets.

Indian real estate sector has witnessed high growth in the recent times with rise in demand for office as well as residential spaces. Government of India along with the governments of respective States has taken several initiatives to encourage development in the sector. The Smart City Project, with a plan to build 100 smart cities, is a prime opportunity for real estate companies.

The residential sector is expected to grow significantly, with the central government aiming to build 20 million affordable houses in urban areas across the country by 2024, under the ambitious Pradhan Mantri Awas Yojana (PMAY) scheme of the Union Ministry of Housing and Urban Affairs. Expected growth in the number of housing units in urban areas will increase the demand for commercial and retail office space.

India's real estate sector is witnessing a healthy increase in demand in 2024 and this momentum is expected to hold for the rest of the year. From commercial spaces to the residential market, the overall market outlook is a bright one for the real estate industry.

### **Real Estate Sector**

The Indian real estate sector was expected to start recovering in 2020 after few lackluster years wherein the sector was impacted by multiple reforms and the changes brought about by Demonetisation, RERA, GST and the NBFC crisis. It has been a tough task for the sector to align itself with these externalities, but the measures have resulted in much needed transparency, accountability and fiscal discipline for the sector. Prior to the pandemic, the real estate sector was expected to contribute around 13% of India's GDP by 2025 (from around 6-7% in 2017), according to ANAROCK Research.

## **COUNTRY CONDO'S LIMITED**

The pandemic nearly stalled the markets in H1 2020 and the sector was virtually written off at the early stages of the pandemic on the expectations of a subsequent economic fallout. However, during this unprecedented crisis, the real estate sector exhibited remarkable resilience and recovered ahead of expectations. After grappling with initial labor shortages and demand deferment, both the residential and office markets witnessed signs of revival from Q3 2023 onwards.

While the pandemic outbreak temporarily disrupted the sector, it also led to emergence of certain trends such as preference for larger apartments, increasing inclination for home ownership as against rental housing, de-densification of office spaces and acceleration of the ongoing consolidation in the sector. Also, the current situation has opened up a lot of business development opportunities for well capitalised developers.

### **Residential Real Estate Market**

The Indian residential sector has been under pressure due to tepid demand in the past few years and the pandemic has further worsened the situation for the sector. While the sector was finding its way post the liquidity crisis and earlier disruptions, the COVID-19 pandemic threw upon an unprecedented crisis and nearly stalled the housing market in the first half of the year. However, contrary to everyone's expectations the residential market proved to be resilient and started recovering strongly from Q3 2023 onwards. Larger established players with easy access to funding and technological edge gained market share during the year. Stagnant housing prices coupled with decadal low interest rates helped the residential sector to stage a meaningful recovery. The sales momentum was particularly strong in many parts of the country, led by time bound stamp duty cuts and a 50% reduction in the construction premiums for all ongoing projects and new launches by the Maharashtra Government and many other State Governments.

According to the Knight Frank affordability matrix, affordability for the top eight cities has improved over the last few years with rising income levels and time correction in the housing sector. An EMI/Income ratio of over 50% is considered unaffordable according to the matrix and most cities have witnessed a dramatic increase in affordability due to decadal low interest rates.

### **Office Market**

The office market in India has been vibrant over the past few years, with record supply and leasing transactions hitting the market. The market was expected to continue its positive momentum in CY2023; however the COVID-19 pandemic and the associated lockdowns resulted into a new set of challenges for the office sector. The corporate tenants were forced to adopt work from home practices and major real estate leasing decisions were delayed. Business activities across all markets came to a standstill because of the pandemic and the phased resumption in a weak economic environment heavily impacted the office demand. The transactions gathered momentum towards the last quarter with gradual recovery in the economy and improved sentiments on the news of potential vaccination in the country. Bangalore office market continued to be resilient, recording leasing transactions to the tune of 12.3 Million sq. ft., which was nearly one-third of the total leasing transactions in the top-8 cities in CY2023.

### **Interest deduction benefit on affordable housing**

The Government in its attempt to boost affordable housing demand, proposed to extend additional tax benefit of H 1.5 Lakh on interest paid on affordable housing loans by one year till March 2024.

### **Tax holiday extended for affordable housing developers**

In order to encourage developers to focus on affordable housing projects, the Government extended the date of approval for these projects for availing tax holiday on profits earned by developers by one year till March 2024.

### **Rental housing for migrant workers**

The government has provided a tax exemption for notified rental housing projects for migrant workers which will facilitate supply and demand for affordable housing.

## **COUNTRY CONDO'S LIMITED**

### **REIT regulation changes**

The government has removed Tax Deduction at Source (TDS) on dividends paid to REITs, which will bring down the administrative burden for REITs. Additionally, the government has proposed to enable debt financing of InVITs/REITs by foreign portfolio investors by making suitable amendments in the relevant legislations which will open up additional avenues of funding at competitive rates.

### **OPPORTUNITIES, THREATS AND CHALLENGES:**

#### **OPPORTUNITIES:**

As India awaits policy reforms to pick up speed, your Company firmly believes that the demand for Real Estate in a country like India should remain strong in the medium to long term. Your Company's well accepted brand, contemporary architecture, well designed projects in strategic locations, strong balance sheet and stable financial performance even in testing times make it a preferred choice for customers and shareholders. Your Company is ideally placed to further strengthen its development potential by acquiring new land parcels.

Real estate sector in India is expected to reach US\$ 1 trillion by 2030. By 2025, it will contribute 13 per cent to country's GDP. Emergence of nuclear families, rapid urbanization and rising household income are likely to remain the key drivers for growth in all spheres of real estate, including residential, commercial and retail. Rapid urbanization in the country is pushing the growth of real estate. Indian real estate developers have shifted gears and accepted fresh challenges.

As India awaits policy reforms to pick up speed, your Company firmly believes that the demand for Real Estate in a country like India should remain strong in the medium to long term. Your Company's well accepted brand, contemporary architecture, well designed projects in strategic locations, strong balance sheet and stable financial performance even in testing times make it a preferred choice for customers and shareholders. Your Company is ideally placed to further strengthen its development potential by acquiring new land parcels.

India has emerged as the fastest growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships. Despite the slowdown in global manufacturing trade growth, COVID-19 Pandemic, followed by lockdown and social distancing norms and further followed by geopolitical tensions due to the Russia-Ukraine War, the economic growth of India was ensured by the government through various financial stimulus packages, announced by the Government of India and the focus on infrastructural development and implementation of new age technology in manufacturing and production sector to make India self-reliant. Also, India's cabinet approved the Production Linked Incentives (PLI) scheme to provide ' 2 trillion over five years to create jobs and boost production in the country. The financial stimulus measures and reforms initiated by the Government of India and liquidity measures by the RBI are expected to support industrial activity and demand. The movement of various high frequency indicators in recent months, points towards broad based resurgence of economic activity.

#### **Consolidation**

The highly fragmented Indian real estate sector has been in a prolonged consolidation phase in the past few years; albeit at a slower pace. The reforms and the disruptions in the real estate sector have ensured that no new player has an easy entry into the sector. Even the existing developers have been under pressure with lackluster sales, high borrowing costs and lack of pricing power. The liquidity crisis worsened the situation for the sector and the pandemic and Russia-Ukraine War has accelerated the process of consolidation. The pandemic has opened up new avenues of growth for well capitalised developers in terms of attractive business development opportunities and online digital sales.

#### **Affordable housing**

Affordable housing continues to remain a significant opportunity for developers and key focus area of the government. In Budget 2023, the government announced several measures to boost affordable housing. In its attempt to boost the affordable housing demand, the government has proposed to extend additional tax benefit of H 1.5 Lakh on interest paid on affordable housing loans by one more year till March 2024. Also, in order to encourage developers to focus on affordable

housing projects, the Government has extended the date of approval for these projects for availing tax holiday on profit earned by developers by one year till March 2024. The affordable housing segment could see a meaningful uptick in demand with an expected economic recovery, improving wages and affordability. Lastly, Affordable Rental Housing Complexes (ARHCs) have been accorded as a sub-scheme under Pradhan Mantri AWAS Yojana-Urban (PMAY-U) to provide ease of living to urban migrants engaged in the informal sectors of the economy.

### **Digital Real Estate Sales**

Over the past few years, digital marketing has emerged as an important tool for real estate developers to boost their sales and reach out to customers globally. While the earlier marketing activities were limited to building consumer experience and establishing connection through digital means, the pandemic has forced the developers to change their conventional sales models.

Developers who have been able to migrate their sales process from on-boarding of customers to closing the deal online, have recorded healthy sales even during the lockdown. Digital collaboration tools can be leveraged by the developers to interact with potential customers, showcase project brochures, facilitate virtual site tours and focus on NRIs to propel the sales. Going ahead, it will be imperative for the developers to adapt to a tech-savvy future in terms of digital platforms for sales and marketing and also introduce enhanced automation at sites.

### **THREATS & CHALLENGES:**

While the management of your Company is confident of creating and exploiting the opportunities, it also finds the following challenges:

- Unanticipated delays in project approvals;
- Availability of accomplished and trained labour force;
- Increased cost of manpower;
- Rising cost of construction lead by increase in commodity prices;
- Growth in auxiliary infrastructure facilities; and
- Over regulated environment.

Indian real estate sector accounts for 13 per cent of the country's Gross Domestic Product and is one of the biggest and globally recognized sectors. The Indian real estate sector is still dependent on old building techniques and hence they are over-dependent on extensive human labour for construction activities. Whereas, high-quality building materials such as concrete and iron slabs are used in new construction techniques. India is touted to be the most populous country by the year 2050. More than 50 per cent of people are urban center and Tier 1 cities. To accommodate the population, India would require more new cities and urban center on a mass scale in order to provide the required resources to the inhabitants.

The geo-political war in Ukraine, a slowing global economy, tightening fiscal policy mired with badly managed/failure of few major players in banking and finance sectors around the world suggest a possible moderation in business confidence and investment. Uncertainty over the global trade environment and volatility in the financial markets have softened the global trade and protracted war in Ukraine poses further downside risks to this forecast. The short-term economic outlook for many European countries has deteriorated sharply giving headwinds for mild recession.

The growth in Asian economies, though stronger than in other regions, with re-opening of China's economy, is expected to be bumpy and is likely to remain below the pre-pandemic rate. The prospects for Indian economies are far more challenging, as other economies in the region viz. Bangladesh, Pakistan and Sri Lanka have sought financial assistance from the International Monetary Fund (IMF) in 2022-23.

### **Regulatory Hurdles**

The real estate sector is a highly regulated sector and any unfavorable changes in government policies and the regulatory environment can adversely impact the performance of the sector. There are substantial procedural delays with regards to land acquisition, land use, project launches and construction approvals. Retrospective policy changes and regulatory bottlenecks may impact profitability and affect the attractiveness of the sector and companies operating within the sector.

## **COUNTRY CONDO'S LIMITED**

### **Funding**

The lending to real estate developers by the NBFCs and HFCs was already limited after the IL&FS crisis and the pandemic has further deteriorated the liquidity situation for weaker developers who had to resort to alternative funding in absence of long term loans from banks. However, Grade-I developers with strong balance sheets continue to enjoy ample liquidity access. Going ahead, the funding situation is likely to remain selective towards the reputed developers and majority of developers will have to rely on cash flow generation from project sales.

**Shortage of Manpower & Technology** The real estate sector is heavily dependent on manual labour. During the pandemic, the sector was badly hit due to reverse migration of construction workers which affected the construction activity severely, leading to delayed timelines for project completion. Hence, there is a need for development of technologically less labour intensive alternative methods of construction.

### **COMPANY STRENGTHS:**

Your Company continues to capitalize on the market opportunities by leveraging its key strengths. These include:

1. **Brand Reputation:** Enjoys higher recall and influences the buying decision of the customer. Strong customer connects further results in higher premium realizations.
2. **Execution:** Possesses a successful track record of quality execution of projects with contemporary architecture.
3. **Strong cash flows:** Has built a business model that ensures continuous cash flows from their investment and development properties ensuring a steady cash flow even during the adverse business cycles.
4. **Significant leveraging opportunity:** Follows conservative debt practice coupled with enough cash balance which provides a significant leveraging opportunity for further expansions.
5. **Outsourcing:** Operates an outsourcing model of appointing globally renowned architects/contractors that allows scalability and emphasizes contemporary design and quality construction – a key factor of success.
6. **Transparency:** Follows a strong culture of corporate governance and ensures transparency and high levels of business ethics.
7. **Highly qualified execution team:** Employs experienced, capable and highly qualified design and project management teams who oversee and execute all aspects of project development.

### **HUMAN RESOURCES:**

The timely availability of skilled and technical personnel is one of the key challenges. The Company maintains healthy and motivating work environment through various measures. This has helped the Company to recruit and retain skilled work force which would result in timely completion of the projects. The Company has cordial relation with the employees and contractors of the company. The staff has the depth of experience and skills to handle company's activities. Skilled team of workers and other professionals ensure superior quality standards during every stage of work. The total employee strength as on March 31, 2023 was 77.

### **Performance Management System:**

Your Company has adopted a holistic approach to the performance management process that focuses on three broad categories - Nurture & Engage, Connect & Coach, Capability Building & Development.

The process begins with the Annual Goal Setting exercise that provides clarity to all employees about their targets. Goal setting ensures a commitment from all employees to achieve higher business milestones and alignment to the organization's goals at a macro level. The process is followed by a formal Mid Year Review and the Annual Review and Rating exercise.

The essence of the performance management process is Continuous Performance Management (CPM). CPM is an agile, modern, human centered approach of evaluating and improving employee performance. It fosters a forward looking mindset and has an emphasis on real time, frequent check-ins and documentation. It is an approach that breaks the stereotype of formal later date discussions, rather it lays emphasis on spot feedback. The continuous check-ins help create an environment of trust, strengthen relationships, build communication and provide remedial coaching to the employees thereby assisting them to realize their full potential.

## **COUNTRY CONDO'S LIMITED**

The Succession Planning helps in identifying the Critical Roles and High Potential employees who can take up these roles in the future. The process ensures business continuity, creates a pipeline for future leaders and provides employees with a defined growth path and an opportunity for a structured and focused learning.

Your Company has a robust Career Development framework that gives employees the power to define aspirations and take charge of their career. They can discuss their development needs and aspirations with their managers and carve a development plan for the future. Your Company extends the required assistance to employees and provide them with opportunities that can facilitate employees to grow both personally and professionally. This enables employees to achieve their career goals and in turn creates a set of motivated, valuable and skilled workforce.

### **Learning & Development:**

The Learning & Development function aims to foster a culture of continuous collaboration and learning. The blended approach to Learning helps in development of Technical, Behavioral, Leadership as well as General Management skills.

### **Mental Wellness:**

Mental wellness is a positive state of mental health. It ensures that individuals think, feel and act in ways that will create positive impact on their personal and professional life. Keeping this in mind, your Company launched 24/7 Employee Assistance Program (EAP).

This program offers professional counseling services to all employees seeking help in managing concerns related to their life. It supports employees who experiences problems that affect their well-being and performance at work. These sessions are conducted privately and ensures complete confidentiality.

For the benefit of all employees, your Company organized the mental wellbeing session facilitated by professional counsellors covering certain real-life issues and topics like managing disagreements, dealing with lockdown situations, parenting, time management, work life balance, stress management and others.

This program has greatly assisted employees during the current unprecedented and challenging times. It has enabled them to manage stress, handle challenges and build stronger relations. This has led to a happier, healthier, focused and more productive workforce.

### **Health and Safety:**

Your Company is always committed to the health and safety of its employees. Your Company provides a clean, hygienic and conducive work environment to all employees. All offices and sites go through regular sanitation, social distancing norms are followed, sanitizers are placed at various locations, visitors' entries are minimized, wearing masks is mandatory. Weekly mailers are sent to educate employees regarding safety measures to be practiced during all the times.

### **Benchmarking:**

It is your Company's constant endeavor to improve its processes and policies. Your Company strives to improve its policies and processes on a continuous basis and benchmarking as a tool assists in achieving the same. It helps to identify actionable insights and stay up to date with Human Capital trends.

### **Fun at work:**

The Fun at Work Committee focuses on innovative initiatives to engage the workforce as enjoying work and ensuring camaraderie is a key element of employee happiness. Celebrations around festivals and cultural activities break the monotony at work and help people to have a more positive mind set, higher levels of wellbeing and better mental health.

### **OUTLOOK:**

The Indian economy is projected to grow by more than 6% in FY24 as per various institutional estimates, making it one of

## **COUNTRY CONDO'S LIMITED**

the fastest-growing economies. India's growth journey could be the result of a culmination of favorable tailwinds like consistent agricultural performance, flattening of the COVID-19 infection curve, increase in government spending, reforms and an efficient roll-out of the vaccine, among others.

In 2023, we anticipate further downward trends in the global economy. This however, should be an opportunity for the Indian economy to become a world leader. The real estate sector is likely to continue on its journey of long term growth as we see a continuous rise in GDP per capita, larger disposable incomes, growing urbanization and most of all a larger focus of the world on us as the next big economy.

An increase in earning potential, a need for a better standard of living and the growing base of aspirational consumers and their lifestyle changes have led to substantial growth in the sector. With suited economic growth, the premium housing segment will also witness higher demand in the years to come.

Mumbai, Delhi-NCR, Hyderabad and Bangalore are expected to remain on investor's radar in 2023.

Unlike the past year, the real estate sector is now picking up with home buyers willing to make the move. With most workers displaced during the lockdown now back, construction activity has resumed and work is moving at a faster pace to fulfill commitments.

The demand for residential property has in fact also been guided by the concept of work from home – as families are now looking out for an upgrade as individual space becomes a crucial factor.

### **INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:**

The Company has an adequate internal control system, corresponding with the size and nature of its business. The system of internal control is supported by documented policies, guidelines and procedures to monitor business and operational performance which are aimed at ensuring business integrity and promoting operational efficiency. It ensures timely and accurate financial reporting in accordance with applicable accounting standards, safeguarding of assets against unauthorized use or disposition and compliance with all applicable regulatory laws and Company policies.

The Company has an Internal Auditor who oversees the entire internal audit function. Internal Auditors of the Company review the internal financial control systems on a regular basis for its effectiveness and necessary changes and suggestions are duly incorporated into the system. However, given the size of its operations in terms of nature of its business, it also uses services of independent audit firms to conduct periodic internal audits in line with an audit plan that is drawn at the beginning of the year. This audit plan, prepared by the Internal Auditor, is approved by the Audit Committee and the Board of Directors.

Internal audit reports are placed periodically before the Audit Committee of the Board of Directors, which reviews the adequacy and effectiveness of the internal control systems and suggests improvements for strengthening them.

The Company has also focused on upgrading the IT infrastructure – both in terms of hardware and software. In addition to the existing ERP platform, the Company is presently reviewing the process documentation to ensure effectiveness of the controls in all the critical functional areas of the Company.

### **SEGMENT WISE PERFORMANCE:**

The Company is primarily engaged only in the business of sale of Plots under Real Estate Segment in India. **ANNEXURES TO DIRECTORS' REPORT****Annexure-I****NOMINATION & REMUNERATION POLICY  
(DIRECTORS, KMP & SENIOR MANAGEMENT)****INTRODUCTION**

In pursuance of the Company's philosophy to consider its employees as its invaluable assets, to pay equitable remuneration to all Directors, Key Managerial Personnel (KMP) and employees of the Company, to harmonize the aspirations of human resources consistent with the goals of the Company and, in terms of the provisions of the Companies Act, 2013, this policy on nomination and remuneration of Directors, Key Managerial Personnel and Senior Management has been formulated by the Nomination & Remuneration Committee and approved by the Board of Directors.

**OBJECTIVE**

The objective and purpose of the Policy are as given below:

1. To lay down criteria and terms and conditions with regard to identifying persons who are qualified to become Directors (Executive and Non-Executive) and persons who may be appointed in Senior Management and Key Managerial positions and to determine their remuneration.
2. To carry out evaluation of the performance of Directors, as well as Key Managerial and Senior Management Personnel.
3. To provide them reward linked directly to their effort, performance, dedication and achievement of Organization's goals as entrusted on them.
4. To retain, motivate and promote talent and to ensure long term retention of talented managerial persons and create competitive advantage.

In the context of the aforesaid objectives the following policy has been framed and recommended by the Nomination & Remuneration Committee jointly with the Human Resources Department of the Company and adopted by the Board of Directors at its meeting held on 26<sup>th</sup> March, 2015.

**DEFINITIONS**

1. Board means Board of Directors of the Company.
2. Directors means Directors of the Company.
3. Committee means Nomination & Remuneration Committee of the Company as constituted or reconstituted by the Board.
4. Company means Country Condo's Limited.
5. Independent Director means a Director referred to in Section 149 (6) of the Companies Act, 2013.
6. Key Managerial Personnel (KMP) means:
  - i. Executive Chairman and / or Managing Director;
  - ii. Whole-time Director;
  - iii. Chief Financial Officer;
  - iv. Company Secretary;
  - v. Such other officer as may be prescribed under the applicable statutory provisions / regulations.
  - vi. Senior Management.
  - vii. Senior Management means personnel of the Company occupying the position of Chief Executive Officer, Chief Operating Officer, Executive Vice President or Vice President of any division of the Company. Unless the context otherwise requires, words and expressions used in this policy and not defined herein but defined in the Companies Act, 2013 as may be amended from time to time shall have the meaning respectively assigned to them therein.

This Policy is divided in two parts: Part – A covers the appointment and nomination and Part – B covers remuneration and perquisites etc.

## **PART – A**

### **POLICY FOR APPOINTMENT AND REMOVAL OF DIRECTOR, KMP AND SENIOR MANAGEMENT**

#### **APPOINTMENT**

1. The candidate for a position at Director, KMP or Senior Management level is met by the Head HR and the Director to whom the position reports into. The interview is targeted at assessing the candidate on his/ her functional & leadership capabilities and cultural fitment to the organization.
2. The MD assesses the shortlisted candidates.
3. The candidate selected through the above rounds is met by the Corporate HR for fitment to the group values and leadership capability requirements.

The selected candidate's details and the proposed compensation is shared with the Nomination & Remuneration Committee for their review and suggestions. The same is shared with the Board at the next board meeting.

#### **TERM/ TENURE**

The tenure for Directors of Company shall be governed by the terms defined in the Companies Act, 2013. However, the tenure for other KMP and Senior Management Personnel will be governed by Company's HR policy.

#### **EVALUATION**

The performance of the whole-time Director, KMP and Senior Management Personnel is evaluated at regular intervals (half yearly/ yearly) by the whole-time Directors/ Managing Director, as applicable.

The performance evaluation of Independent Directors shall be done by the Board, excluding the Director being evaluated, basis the contributions made to the Board deliberations on various matters including business strategy, financial strategy, operations, cost and risk management, etc., and suggestions given in this regard.

#### **REMOVAL**

Due to reasons for any disqualification mentioned in the Companies Act, 2013, rules made thereunder or under any other applicable Act, rules and regulations, the Managing Director / Chief Executive Officer may recommend, to the Committee and the Board with reasons recorded in writing, removal of a Director, subject to the provisions and compliance of the said Act, rules and regulations.

For other KMP or Senior Management Personnel, the removal will be governed by Company's HR policy and the subsequent approval of the Managing Director / Chief Executive Officer.

#### **RETIREMENT**

The Director, KMP and Senior Management Personnel shall retire as per the applicable provisions of the Companies Act, 2013 and the prevailing policy of the Company. The Managing Director / Chief Executive Officer will have the discretion to retain the Director, KMP, Senior Management Personnel in the same position / remuneration or otherwise even after attaining the retirement age, for the benefit of the Company.

**PART – B**

**POLICY RELATING TO EVALUATION AND REMUNERATION OF THE WHOLE-TIME DIRECTORS, KMP AND SENIOR MANAGEMENT PERSONNEL**

**EVALUATION PROCESS:**

A two point rating scale for performance review of Executive Director, KMP and Senior Management is to be followed:

1. **Rating on Basic Job Responsibilities:** Indicating whether the basic job responsibilities have been met during the year.
2. **Rating on Goals:** Annual rating on each goal on a five point scale. Weighted average of the ratings is calculated to arrive at a 'Weighted Goal Score'.

Based on a holistic view of the two point rating, the supervisor provides an overall rating. This rating is reviewed by the Managing Director / Chief Executive Officer who does a Qualitative review of the performance based on the efforts put in by the employee, results achieved and impact of the external and internal factors, to arrive at a 'final annual rating'.

The revision in the total remuneration is directly linked to the 'final annual rating' for all employees.

1. The remuneration/ compensation/ commission etc., to the Whole-time Director, KMP and Senior Management Personnel will be determined by the Managing Director / Chief Executive Officer in accordance with the Company's HR policy, which is based upon the final annual rating, employee potential and market benchmark compensation. The revised remuneration is shared with the Nomination & Remuneration Committee for review.
2. If the stock options are granted to any Employee then, the company stock options granted under the Employee Stock Grant Scheme to the Whole-time Director and Senior Management Personnel will be determined by the Managing Director / Chief Executive Officer as per the ESGS guidelines and recommended to the Committee and the Board for approval in the subsequent board meeting.
3. The remuneration / compensation / commission etc., shall be subject to the prior/ post approval of the shareholders of the Company and Central Government, wherever required.
4. The remuneration and commission to be paid to the Whole-time Director shall be in accordance with the percentage / slabs / conditions laid down in the Articles of Association of the Company and as per the provisions of the Companies Act, 2013, and the rules made thereunder.
5. Increments to the existing remuneration / compensation structure may be recommended by the Managing Director/ Chief Executive Officer to the Committee and the Board which should be within the slabs approved by the Shareholders in the case of Whole-time Director. Increments will be effective from that respective date as the Board determines, in respect of a Whole-time Director and other employees of the Company.
6. Where any insurance is taken by the Company on behalf of its Whole-time Director, Chief Executive Officer, Chief Financial Officer, the Company Secretary and any other employee for indemnifying them against any liability, the premium paid on such insurance shall not be treated as part of the remuneration payable to any such personnel. Provided that if such person is proved to be guilty, the premium paid on such insurance shall be treated as part of the remuneration.

### **ANNEXURE – “A” TO DIRECTORS REPORT- CORPORATE GOVERNANCE (Pursuant to Regulation 34(3) & 53(f) of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015**

#### **COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE:**

*“Corporate governance is concerned with holding the balance between economic and social goals and between individual and communal goals. The governance framework is there to encourage the efficient use of resources and equally to require accountability for the stewardship of those resources. The aim is to align as nearly as possible the interests of individuals, corporations and society.” (Sir Adrian Cadbury, UK, Commission Report: Corporate Governance 1992).*

Corporate governance is an ethically driven business process that is committed to values aimed at enhancing an organization's wealth generating capacity. This is ensured by conducting business with a firm commitment to values, while at the same time, meeting stakeholders' expectations.

Strong leadership and effective corporate governance practices have been the Company's hallmark inheritance from the Company's culture and ethos. At Country Condo's Limited, it is imperative that business is conducted in a fair and transparent manner. The corporate governance framework ensures effective engagement with various stakeholders and helps the Company evolve with changing times. It oversees business strategies and ensures fiscal accountability, ethical corporate behavior and fairness to all stakeholders comprising of regulators, employees, customers, vendors, investors and the society at large.

Country Condo's Limited believes that good governance is essential to achieve long term corporate goals and enhance stakeholders' value. Thus the Company's philosophy on Corporate Governance aims at attaining the highest level of transparency, accountability towards its stakeholders, including shareholders, employees, the Government and lenders and to maximize returns to shareholders through creation of wealth on sustainable basis, compliance of laws in all facets of operations leading to best standards of Corporate Governance. The Company believes that good ethics make good business sense and our business practices are set keeping with this spirit.

The Company endeavors to achieve optimum performance at all levels of management by adhering to good corporate governance practices, namely, the following:

- a) Fair and transparent business practices.
- b) Effective management control by Board.
- c) Adequate representation of Promoter, Executive and Independent Directors on the Board.
- d) Monitoring of executive performance by the Board.
- e) Compliance of Laws.
- f) Transparent and timely disclosure of financial and management information.

#### **THE GOVERNANCE STRUCTURE**

##### **1. BOARD OF DIRECTORS:**

###### **a) Board Structure**

The Company has an optimal combination of executive, non-executive and independent directors to maintain the independence of the Board from the management, which is in conformity with the requirement of Section 149(4) of the Companies Act, 2013 (the Act) and Regulation 17 of The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations').

**INDEPENDENT AUDITOR'S REPORT****To the Members of  
M/S COUNTRY CONDO'S LIMITED****Report on the Audit of Ind AS Financial Statements****Opinion**

We have audited the accompanying Ind AS Financial Statements of **M/S COUNTRY CONDO'S LIMITED** ("the company"), which comprise the Balance Sheet as at 31st March, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of changes in equity for the year then ended, and notes to financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("IndAS") and other accounting principles generally accepted in India of the state of affairs of "the Company" as at March 31, 2023, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

**Basis for Opinion**

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Depending on the facts and circumstances of the entity and the Audit, there are no key audit matters to communicate in the Audit Report.

**In connection with our audit of the Information Other than the Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

## **COUNTRY CONDO'S LIMITED**

In connection with our audit of financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

### **Management's Responsibility for the Financial Statements**

The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the IndAS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit Procedures that is appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists; we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure-A, a statement on the matters Specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
  - d) In our opinion, the aforesaid financial statements comply with the IndAS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

## **COUNTRY CONDO'S LIMITED**

- e) On the basis of the written representations received from the directors as on March 31, 2023 taken on record by the Board of Directors, none of the directors are disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

**ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT**

**Report on the Internal Financial Controls over Financial Reporting under Clause(i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of **COUNTRY CONDO’S LIMITED** (“the Company”) as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditor’s Responsibility**

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

**Meaning of Internal Financial Controls over Financial Reporting**

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detailed, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS Financial Statements in accordance with generally accepted principles, and that receipts and expenditures are being made

## **COUNTRY CONDO'S LIMITED**

only in accordance with authorization of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Ind AS Financial Statements.

### **Inherent Limitation of Internal Financial Controls over Financial Reporting**

Because of the inherent limitation of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, Projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## **COUNTRY CONDO'S LIMITED**

**Notes and other explanatory information to financial statements for the year ended March 31, 2023**

### **1. Description of the Company and Significant Accounting Policies**

#### **1.1 Corporate Information**

Country Condo's Limited ('the Company') is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its equity shares are listed on BSE Limited.

The Country Condo's Limited was incorporated on 25/09/1987 under companies Act 1956 in the name and style as Country Condo's Limited as a Public Limited Company having Registered Office situated at 7-1-19/3, 1st Floor, I.S.R. Complex, Kundanbagh, Begumpet, Hyderabad, Hyderabad, Telanagna – 500016.

The company's main activity broadly consists of Real estate operations. The company's real estate operations consist of procurement of land banks across the country, develop them into residential layouts with all amenities including club house and sell them in plots to customers. The company also undertakes allied activities of construction of compound walls etc. in the developed layouts. The company is also planning to undertake construction and sale of Condos.

The financial statements of the Company for the year ended March 31, 2023 were approved for issue in accordance with the resolution of the Board of Directors on May 30, 2023.

### **2. Basis of preparation of financial statements**

#### **(i) Statement of Compliance**

These Financial Statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Companies (Indian Accounting Standards) Rules, 2015 and presentation requirements of Division II of Schedule III to the Companies Act, 2013, and as amended from time to time together with the comparative period data as at and for the year ended 31 March 2022.

These financial statements have been prepared by the Company as a going concern on the basis of relevant Ind AS that are effective or elected for early adoption at the Company's annual reporting date, 31 March 2023. These financial statements were authorised for issuance by the Company's Board of Directors on May 30, 2023

#### **(ii) Basis of measurement**

These Financial Statements have been prepared on the historical cost convention and on an accrual basis, except for the following material items in the balance sheet:

- derivative financial instruments are measured at fair value;
- financial assets are measured either at fair value or at amortised cost depending on the classification;
- employee defined benefit assets/(liabilities) are recognised as the net total of the fair value of plan assets, adjusted for actuarial gains/(losses) and the present value of the defined benefit obligation;
- long-term borrowings are measured at amortised cost using the effective interest rate method;
- share-based payments are measured at fair value;
- assets held for sale are measured at fair value;
- assets acquired and liabilities assumed as part of business combinations are measured at fair value;
- Contingent consideration arising out of business combination are measured at fair value; and
- right-of-use the assets are recognised at the present value of lease payments that are not paid at that date. This amount is adjusted for any lease payments made at or before the commencement date, lease incentives received and initial direct costs, incurred, if any.

**(iii) Use of Estimates and Judgements**

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- Note 1.3 (a) — Financial instruments;
- Note 1.3 (b) — Business combinations and goodwill;
- Notes 1.3 (c) and 1.3 (d) — Useful lives of property, plant and equipment and intangible assets;
- Notes 1.3(e) – Determination of cost for right-of-use assets and lease term;
- Note 1.3 (f) — Valuation of inventories;
- Note 1.3 (g) — Measurement of recoverable amounts of cash-generating units;
- Note 1.3 (h) — Assets and obligations relating to employee benefits;
- Note 1.3 (i) — Share-based payments;
- Note 1.3 (j) — Provisions and other accruals;
- Note 1.3 (k) — Measurement of transaction price in a revenue transaction
- Note 1.3 (l) — Evaluation of recoverability of deferred tax assets, and estimation of income tax payable and income tax expense in relation to uncertain tax positions; and
- Note 1.3 (m) — Contingencies

**(iv) Current and non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1, Presentation of Financial Statements.

**Assets:**

An asset is classified as current when it satisfies any of the following criteria:

- a) it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is expected to be realised within twelve months after the reporting date; or
- d) it is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

**Liabilities:**

A liability is classified as current when it satisfies any of the following criteria:

- a) it is expected to be settled in the Company's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within twelve months after the reporting date; or
- d) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

## **COUNTRY CONDO'S LIMITED**

Current assets and liabilities include the current portion of non-current assets and liabilities respectively. All other assets and liabilities are classified as non-current. Deferred tax assets and liabilities are always classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle

### **(v) Prior Period Comparatives**

Prior period amounts have been reclassified to conform to the current year classification.

### **(vi) Functional and Presentation Currency**

These financial statements are presented in Indian rupees, which is the functional currency of the company. All financial information presented in Indian rupees has been rounded to the nearest Lakhs.

## **2.1 Summary of Significant Accounting Policies**

### **a) Financial Instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### **Financial assets**

##### **Initial recognition and measurement**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (e.g., regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset. Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, in which case they are recognised at fair value. The Company's trade receivables do not contain any significant financing component and hence are measured at the transaction price measured under Ind AS 115 "Revenue from Contracts with Customers".

##### **Subsequent Measurement**

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost;
- Debt instruments at FVTOCI;
- Debt instruments, derivatives and equity instruments at FVTPL; and
- Equity instruments measured at FVTOCI.

##### **Debt instruments at amortised cost**

A "debt instrument" is measured at the amortised cost if both the following conditions are met:

- a) the asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- b) contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate method and are subject to impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in statement of profit and loss and presented in other income. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

#### **Debt instrument at FVTOCI**

A “debt instrument” is classified as at the FVTOCI if both of the following criteria are met:

- a) the objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and
- b) the asset’s contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the OCI. However, the Company recognises interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified to the statement of profit and loss. Interest earned while holding a FVTOCI debt instrument is reported as interest income using the effective interest rate method.

#### **Debt instrument at FVTPL**

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as at FVTPL. In addition, the Company may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as an “accounting mismatch”).

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

#### **Equity investments**

All equity investments within the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in OCI subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made upon initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of investment.

However, on sale the Company may transfer the cumulative gain or loss within equity. Equity investments designated as FVTOCI are not subject to impairment assessment.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

**Investments in subsidiaries and joint venture:**

Investments in subsidiaries and joint venture are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries and joint venture, the difference between net disposal proceeds and the carrying amounts are recognised in the statement of profit and loss.

**Derecognition**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- the rights to receive cash flows from the asset have expired; or
- Both (1) the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangements and (2) either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

**Impairment of trade receivables and other financial assets**

In accordance with Ind AS 109, the Company applies the expected credit loss ("ECL") model for measurement and recognition of impairment loss on trade receivables or any contractual right to receive cash or another financial asset. For this purpose, the Company follows a "simplified approach" for recognition of impairment loss allowance on the trade receivable balances. The application of this simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

**Financial liabilities****Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

**Subsequent Measurement**

The measurement of financial liabilities depends on their classification, as described below:

**Financial liabilities at FVTPL**

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at FVTPL are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains or losses attributable to changes in own credit risk are recognised in OCI. These gains or losses are not subsequently transferred to the statement of profit and loss.

However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company has not designated any financial liability as FVTPL.

**Loans and Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the statement of profit and loss over the period of the borrowings using the effective interest method. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised as well as through the effective interest rate amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included as finance costs in the statement of profit and loss.

**Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

**Derivative financial instruments**

The Company uses derivative financial instruments such as foreign exchange forward contracts, option contracts and swap contracts to mitigate its risk of changes in foreign currency exchange rates. The Company also uses non-derivative financial instruments as part of its foreign currency exposure risk mitigation strategy. Derivatives are classified as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

**Hedges of highly probable forecasted transactions**

The Company classifies its derivative financial instruments that hedge foreign currency risk associated with highly probable forecasted transactions as cash flow hedges and measures them at fair value. The effective portion of such cash flow hedges is recorded in the Company's hedging reserve as a component of equity

and re-classified to the statement of profit and loss as part of the hedged item in the period corresponding to the occurrence of the forecasted transactions. The ineffective portion of such cash flow hedges is recorded in the statement of profit and loss as finance costs immediately. The Company also designates certain non-derivative financial liabilities, such as foreign currency borrowings from banks, as hedging instruments for hedge of foreign currency risk associated with highly probable forecasted transactions. Accordingly, the Company applies cash flow hedge accounting to such relationships. Remeasurement gain or loss on such non-derivative financial liabilities is recorded in the Company's hedging reserve as a component of equity and reclassified to the statement of profit and loss as part of the hedged item in the period corresponding to the occurrence of the forecasted transactions.

If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, then hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognised in OCI, remains there until the forecasted transaction occurs. If the forecasted transaction is no longer expected to occur, then the balance in OCI is recognised immediately in the statement of profit and loss.

### **Hedges of recognised Assets and Liabilities**

Changes in the fair value of derivative contracts that economically hedge monetary assets and liabilities in foreign currencies, and for which no hedge accounting is applied, are recognised in the statement of profit and loss. The changes in fair value of such derivative contracts, as well as the foreign exchange gains and losses relating to the monetary items, are recognised in the statement of profit and loss. If the hedged item is derecognised, the unamortised fair value is recognised immediately in the statement of profit and loss.

### **Hedges of changes in the interest rates**

Consistent with its risk management policy, the Company uses interest rate swaps to mitigate the risk of changes in interest rates. The Company does not use them for trading or speculative purposes.

### **Cash and Cash equivalents**

Cash and cash equivalents consist of cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. For this purpose, "short-term" means investments having original maturities of three months or less from the date of investment. Bank overdrafts that are repayable on demand form an integral part of the Company's cash management and are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

## **b) Business combinations and goodwill**

Business combinations are accounted for using the acquisition method regardless of whether equity instruments or other assets are acquired. The acquisition date is the date on which control is transferred to the acquirer. Judgement is applied in determining the acquisition date and determining whether control is transferred from one party to another. Control exists when the Company is exposed to, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through power over the entity. In assessing control, potential voting rights are considered only if the rights are substantive.

The Company determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organized workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

## **COUNTRY CONDO'S LIMITED**

The consideration transferred for the acquisition of a subsidiary is comprised of:

- fair values of the assets transferred;
- liabilities incurred to the former owners of the acquired business;
- equity interests issued by the Company;
- fair value of any asset or liability resulting from a contingent consideration arrangement; and
- fair value of any pre-existing equity interest in the subsidiary.

At the acquisition date, the identifiable assets acquired and liabilities and contingent liabilities assumed are, with limited exceptions, measured initially at their fair values. For each business combination, the Company elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets.

Acquisition-related costs are expensed as incurred. If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date. Any gains or losses arising from such re-measurement are recognised in the statement of profit and loss.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Contingent consideration classified as equity is not re-measured and its subsequent settlement is accounted for within equity. Amounts classified as a financial liability are subsequently re-measured to fair value, with changes in fair value recognised in the statement of profit and loss.

Goodwill is initially measured at cost, being the excess of the aggregate of:

- the consideration transferred;
- the amount of any non-controlling interest in the acquired entity; and
- the acquisition-date fair value of any previous equity interest in the acquired entity.

over the fair value of the net identifiable assets acquired. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

### **c) Property, plant and equipment**

#### **Recognition and Measurement**

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and other costs directly attributable to bringing the asset to a working condition for its intended use.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Capital work in progress is stated at cost, net of accumulated impairment loss, if any. An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains and losses upon disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within "Other income/ Selling and other expense" in the statement of profit and loss.

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of repairs and maintenance are recognised in the statement of profit and loss as incurred.

Items of property, plant and equipment acquired through exchange of non-monetary assets are measured at fair value, unless the exchange transaction lacks commercial substance or the fair value of either the asset received or asset given up is not reliably measurable, in which case the asset exchanged is recorded at the carrying amount of the asset given up.

### **Depreciation**

Depreciation is recognised in the statement of profit and loss on a straight line basis over the estimated useful lives of property, plant and equipment. Land is not depreciated but subject to impairment. Depreciation methods, useful lives and residual values are reviewed at each reporting date and any changes are considered prospectively.

The Estimated useful lives are as follows:

<b>Particulars</b>	<b>Useful life</b>
Buildings	30 years
Plant and Machinery	15 years
Electrical Equipment	5 years
Office Equipment	5 years
Computers - Laptops & Desktops	3 years
Computers - Servers	6 Years
Furniture and Fixtures	10 years
Vehicles - Four Wheelers	8 years
Vehicles - Two Wheelers	10 years
Leasehold Improvements	10 years

Schedule II to the Companies Act, 2013 ("Schedule") prescribes the useful lives for various classes of tangible assets. For certain class of assets, based on the technical evaluation and assessment, the Company believes that the useful lives adopted by it best represent the period over which an asset is expected to be available for

use. Accordingly, for these assets, the useful lives estimated by the Company are different from those prescribed in the Schedule.

**d) Intangible Assets**

Intangible assets other than acquired in a business combination are measured at cost at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.

Research costs are expensed as incurred. Internally generated intangible asset arising from development activity is recognized at cost on demonstration of its technical feasibility, the intention and ability of the company to complete, use or sell it, only if, it is probable that the asset would generate future economic benefit and the expenditure attributable to the said assets during its development can be measured reliably.

An item of Intangible assets is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Intangible assets are determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the profit or loss.

**e) Leases****Company as a lessee**

The Company assesses at contract inception whether a contract is or contains a lease, which applies if the contract conveys the right to control the use of the identified asset for a period of time in exchange for consideration. The Company recognises a right-of-use asset at the commencement date of the lease, i.e. the date the underlying asset is available for use. Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments to be made over the lease term:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Company under residual value guarantees
- the exercise price of a purchase option if the Company is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the Company exercising that option.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Company, then the lessee's incremental borrowing rate is used. Such borrowing rate is calculated as the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions. The Company's lease liabilities are included in borrowings.

Lease payments are allocated between principal and interest cost. The interest cost is charged to statement of profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost less accumulated depreciation and accumulated impairment comprised of the following:

## **COUNTRY CONDO'S LIMITED**

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. Payments associated with short-term leases of equipment and vehicles and all leases of low-value assets are recognised on a straight-line basis as an expense in the statement of profit and loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT equipment and small items of office furniture.

The right-of-use assets are initially recognised on the balance sheet at cost, which is calculated as the amount of the initial measurement of the corresponding lease liability, adjusted for any lease payments made at or prior to the commencement date of the lease, any lease incentive received and any initial direct costs incurred by the Company.

### **Company as a lessor:**

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 "Revenue from Contracts with Customers" to allocate the consideration in the contract.

### **f) Inventories**

Inventories are valued at the lower of cost and net realisable value. Inventories consist of work-in-progress and finished goods and are measured at the lower of cost and net realisable value.

The cost of all categories of inventories is based on the weighted average method. Cost includes expenditures incurred in acquiring the inventories, conversion costs and other costs incurred in bringing them to their existing location and condition.

In the case of finished goods and work-in-progress, cost includes an appropriate share of overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

The factors that the Company considers in determining the provision for slow moving and other non-saleable inventory include estimated shelf life, planned product discontinuances, price changes and introduction of competitive new products, to the extent each of these factors impact the Company's business and markets. The Company considers all these factors and adjusts the inventory provision to reflect its actual experience on a periodic basis.

**g) Impairment****Non-financial assets**

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, an impairment test is performed each year at 31 March.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generate cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

The goodwill acquired in a business combination is, for the purpose of impairment testing, allocated to cash-generating units that are expected to benefit from the synergies of the combination.

An impairment loss is recognised in the statement of profit and loss if the estimated recoverable amount of an asset or its cash-generating unit is lower than its carrying amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Goodwill that forms part of the carrying amount of an investment in joint venture is not recognised separately, and therefore is not tested for impairment separately. Instead, the entire amount of the investment in joint venture is tested for impairment as a single asset when there is objective evidence that the investment in joint venture may be impaired.

**h) Employee Benefits****Short-term employee benefits**

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

**Defined contribution plans**

The Company's contributions to defined contribution plans are charged to the statement of profit and loss as and when the services are received from the employees.

**Defined benefit plans**

The liability in respect of defined benefit plans and other post-employment benefits is calculated using the projected unit credit method consistent with the advice of qualified actuaries. The present value of the defined

benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related defined benefit obligation. In countries where there is no deep market in such bonds, the market interest rates on government bonds are used. The current service cost of the defined benefit plan, recognized in the statement of profit and loss in employee benefit expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognized immediately in the statement of profit and loss.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions for defined benefit obligation and plan assets are recognized in OCI in the period in which they arise.

When the benefits under a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in the statement of profit and loss. The Company recognises gains or losses on the settlement of a defined benefit plan obligation when the settlement occurs.

#### **Termination benefits**

Termination benefits are recognised as an expense in the statement of profit and loss when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognised as an expense in the statement of profit and loss if the Company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

#### **Other long-term employee benefits**

The Company's net obligation in respect of other long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognised in the statement of profit and loss in the period in which they arise.

#### **Compensated absences**

The Company's current policies permit certain categories of its employees to accumulate and carry forward a portion of their unutilised compensated absences and utilise them in future periods or receive cash in lieu thereof in accordance with the terms of such policies. The Company measures the expected cost of accumulating compensated absences as the additional amount that the Company incurs as a result of the unused entitlement that has accumulated at the reporting date. Such measurement is based on actuarial valuation as at the reporting date carried out by a qualified actuary.

### **i) Share Based Payments**

#### **Equity settled share-based payment transactions**

The grant date fair value of options granted to employees is recognised as an employee benefit expense, in the statement of profit and loss, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the options. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and performance conditions are expected to be met, such

that the amount ultimately recognised is based on the number of awards that meet the related service and performance conditions at the vesting date. The expense is recorded for each separately vesting portion of the award as if the award was, in substance, multiple awards. The increase in equity recognised in connection with share-based payment transaction is presented as a separate component in equity under "share-based payment reserve". The amount recognised as an expense is adjusted to reflect the actual number of stock options that vest.

#### **Cash settled share-based payment transactions**

The fair value of the amount payable to employees in respect of share-based payment transactions which are settled in cash is recognised as an expense, with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is re-measured at each reporting date and at the settlement date based on the fair value of the share-based payment transaction. Any changes in the liability are recognised in the statement of profit and loss.

#### **j) Provisions**

A provision is recognised in the statement of profit and loss if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

#### **Restructuring**

A provision for restructuring is recognised in the statement of profit and loss when the Company has approved a detailed and formal restructuring plan, and the restructuring either has commenced or has been announced publicly. Future operating costs are not provided.

#### **Onerous contracts**

A provision for onerous contracts is recognised in the statement of profit and loss when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

#### **Reimbursement rights**

Expected reimbursements for expenditures required to settle a provision are recognised in the statement of profit and loss only when receipt of such reimbursements is virtually certain. Such reimbursements are recognised as a separate asset in the balance sheet, with a corresponding credit to the specific expense for which the provision has been made.

#### **Contingent liabilities and contingent assets**

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are not recognised in the financial statements. A contingent asset is disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually and, if it is virtually certain

that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

**k) Revenue Recognition**

The Company's revenue is derived from sales of plots and rendering of services. Most of such revenue is generated from the sale of plots. The Company has generally concluded that it is the principal in its revenue arrangements.

**Sale of plots**

Revenue is recognised when the control of the plots has been transferred to a third party. This is usually when the title passes to the customer upon registration of plots. At that point, the customer has full discretion over the channel and price to sell the products, and there are no unfulfilled obligations that could affect the customer's acceptance of the product.

Revenue from the sale of plots is measured at the transaction price which is the consideration received or receivable, net of returns and applicable trade discounts and allowances.

**Services**

Revenue from services rendered, which primarily relate to contract research, is recognised in the statement of profit and loss as the underlying services are performed. Upfront non-refundable payments received under these arrangements are deferred and recognised as revenue over the expected period over which the related services are expected to be performed.

Revenue from services rendered is recognized in the statement of Profit and loss only when the rendering of services is fully completed or substantially completed.

Proportionate completion method is a method of accounting which recognizes revenue in the statement of profit and loss proportionately with degree of completion of services under a contract.

**Other Income**

Other income consists of interest income on funds invested and gains on the disposal of assets. Interest income is recognised in the statement of profit and loss as it accrues, using the effective interest method. The associated cash flows are classified as investing activities in the statement of cash flows. Finance cost consist of interest expense on loans and borrowings.

**l) Borrowing Costs**

Borrowing costs are recognised in the statement of profit and loss using the effective interest method. The associated cash flows are classified as financing activities in the statement of cash flows.

**m) Income tax**

Income tax expense consists of current and deferred tax. Income tax expense is recognised in the statement of profit and loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

**Current tax**

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

**Deferred tax**

Deferred tax is recognized using the balance sheet approach. Deferred tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred tax assets are recognized to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

Deferred tax liabilities are recognized for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries and foreign branches where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

The Company offsets deferred tax assets and liabilities, where it has a legally enforceable right to offset current tax assets against current tax liabilities, and they relate to taxes levied by the same taxation authority on either the same taxable entity, or on different taxable entities where there is an intention to settle the current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred Tax includes MAT credit, if any and it is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay income tax higher than that computed under MAT, during the period that MAT is permitted to be set off under the Income Tax Act, 1961 for a specified period. Credit on account of MAT is recognized as an asset based on the management's estimate of its recoverability in the future.

**n) Earnings per Share**

The Company presents basic and diluted earnings per share ("EPS") data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which includes all stock options granted to employees.

**o) Rounding Off**

All amounts in Indian Rupees disclosed in the financial statements and notes have been rounded off to the nearest Lakhs unless otherwise stated.

**p) Fair Value Measurement**

The Company's accounting policies and disclosures require the determination of fair value, for certain financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made

in determining fair values is disclosed in the notes specific to that asset or liability. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets, such as assets acquired in a business combination and significant liabilities, such as contingent consideration. Involvement of external valuers is determined by the Management, based on market knowledge, reputation, independence and whether professional standards are maintained.
